A premier provider of transaction processing services and payment technologies, TRANSFIRST is ranked among the top 15 largest payment processors in the United States. Serving more than 760 community banks and 150,000 merchant customers and with \$18.5 billion in annual sales volume processed, we are the largest privately-held processor not associated with a bank in the United States.

With TRANSFIRST ePayment Services, your business can quickly and efficiently coordinate all aspects of order capture, fulfillment and merchant services. We provide the ePayment processing suite of solutions that can help ensure the success of your business.

Authorize.Net

a CyberSource solution

Authorize.Net, a service of Lightbridge, is the preferred global payment-processing service for e-commerce, enabling merchants to process secure transactions in real time, 24 hours a day. More businesses are using Authorize.Net to process their transactions over the Internet than any other payment solutions provider.

Since 1996, Authorize.Net has rapidly become a leading provider of Internet-based transaction services, with thousands of online and traditional business customers around the world. Authorize.Net has also formed strategic alliances with leading financial institutions and technology partners to deliver the most comprehensive online authorization and processing services in the industry.

We are a reseller of authorize.net which uses the following platforms:

Concord EFS, FDC Omaha, FDC Nashville, Global, Lynk- RBS Lynk, Nova, Vital, Paymentech (Orlando Platform)

Internet credit card processing has been the fastest growing sector in the merchant service industry over the last 10 years. Since 2002, eMerchant has specialized in helping web based businesses get their start on the internet with eCommerce Merchant Services and eCommerce Credit Card Processing. We now provide Internet Merchant Services to some of the largest sites on the internet. Low discount rates, along with concierge style service, have made us the preferred choice of many successful online retailers. We understand the unique payment processing needs of Internet-based businesses.
